

**CANDIDATE FOR MEMBER OF THE STATE ASSEMBLY
36TH DISTRICT**

NAME: ROBERT "BO" BYNUM, Democrat

AGE: 54

OCCUPATION: School District Trustee

As a long-time High Desert resident, I have worked as a public servant to meet the challenges resulting from our tremendous growth. As a city planning commissioner and a school district trustee, I have met challenging developments and budget issues while successfully protecting the public interest.

That's what I'll continue to do as your Assemblyman. I'm running to improve livelihoods, strengthen families and increase our quality of life.

I will make allies so that legislation that directly benefits us gets passed.

The present leadership has not: decreased violent crime; provided enough good jobs with good benefits; ensured sufficient public, private and veteran healthcare facilities; reduced injuries and fatalities on our congested and dangerous roads; shown commitment to the success of public education; improved water and air quality

We must do better. I will do better. When elected, I will work to:

- provide law enforcement the funding and resources it needs, increase penalties for violent crime and advocate a broader approach focusing on prevention and education;
- strengthen working families by aiding local governments in getting industries here that pay well with good benefits;
- provide quality public education, to include vocational counseling, job training and apprentice programs in the recognition that not every student is college bound;
- secure funding to improve our transportation infrastructure; and improve the quality of healthcare and expand access to it.

Demand change. Demand results. Elect Robert "Bo" Bynum to the California Assembly.
